Drawings

1. Color photographs and color drawings are acceptable only for examination purposes unless a petition filed under 37 CFR 1.84(a)(2) is granted permitting their use as acceptable drawings. In the event that applicant wishes to use the drawings currently on file as acceptable drawings, a petition must be filed for acceptance of the color photographs or color drawings as acceptable drawings. Any such petition must be accompanied by the appropriate fee set forth in 37 CFR 1.17(h), three sets of color drawings or color photographs, as appropriate, and an amendment to the first paragraph of the brief description of the drawings section of the specification which states:

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the U.S. Patent and Trademark Office upon request and payment of the necessary fee.

Color photographs will be accepted if the conditions for accepting color drawings have been satisfied.

2. The drawings are objected to because the photographs of the drawings are too dark and the details of the drawings cannot easily viewed. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

3. Claims 1-3 allowed.

The following is an examiner's statement of reasons for allowance: None of the prior arts discloses a slider element securely and non-detachably attached to the

raceway element during the assembly process by retention bands of collar blank material and means for severing the retention bands and separating the slider element from the middle panel.

4. Claims 4-6 allowed.

The following is an examiner's statement of reasons for allowance: None of the prior arts discloses a method of making a user closable collar for a vacuum cleaner bag comprising the step of cutting through one of the panels and retention bands of collar material whereby the slider element is freed from the middle panel and in a closed position the aperture of the slider element and the apertures of the outer panels are in alignment and the apertures of the first and second outer panels are occluded by the slider when the user operates the slider element to an open position.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
